Professional proficiency

🔑 HOBBIES

- I practice CrossFit and meditation daily, enjoy nature, trekking,dancing salsa and i am an avid reader.

📁 PROJECTS

Ohmyfood ✍

SCSS, HTML

- Ohmyfood (SCSS, HTML): Responsive restaurant web app with UI animations.

Sophie Bluel (JS, CSS) ✍

JS, CSS

- Architect portfolio site with dynamic gallery and REST API.

Kasa (React, scss) ✍

Website Redesign (React Migration)

Developed the new Kasa web application using React based on modern Figma designs, ensuring a fully responsive and user-friendly interface, and implemented all front-end features according to strict technical guidelines during a major legacy-to-JavaScript migration.

Argent Bank (React, Redux) ✍

React, Redux

- I Built a secure banking app with account and username management and implemented future API roads

Portfolio ✍

Professional Front-End Development Portfolio

- Showcased a modern and responsive web design, developed using **TypeScript**, **Next.js**, and **Tailwind CSS**

Meteo-react (React, taiwind) ✍

Responsive Weather App with Real-Time Forecasts

Developed a modern web application using React and Vite that provides live weather information for any city worldwide. Features include intuitive search, detailed hourly and daily forecasts, API-driven data retrieval, and optimized deployment on GitHub Pages. Demonstrates strong skills in frontend engineering, responsive design, and integration of third-party APIs.

Memory game ✍

Full-Stack project : js,css and node.js, mongodb

Developed a memory card-matching game using JavaScript, CSS, and backend technologies. Handled both frontend and backend development, focusing on clean code, responsive design, and seamless user experience. Strengthened skills in full-stack development and problem-solving.
